

Two Days National Conference on
'Ethnomedicine: Prospects and Challenges in Global Healthcare Scenario'

Duration- 21st – 22nd February 2018

SCES's, Indira College of Pharmacy, Pune in association with Society for Ethnopharmacology, India (SFE, Pune Chapter), had organized Savitribai Phule Pune University Sponsored Two Days National Conference on 'Ethnomedicine: Prospects and Challenges in Global Healthcare Scenario' & National Level Poster Presentation Competition 10th 'INDIRA PHARMA ZEAL' on 21st and 22nd February 2018.

Dr. Tarita Shankar, Chairperson, Indira group of Institutes and Prof. Chetan Wakalkar Group Director graced the occasion.

Chief Guest Dr. Pulok Mukherjee, Director, School of Natural Products Studies, Jadavpur University, Kolkata, emphasized on " Drug Development from Ethnopharmacology" & related thrust areas of interest including marker profiling, phyto-informatics, reverse pharmacology & related integrated approaches in the field of Ethnopharmacy and Pharmacognosy. He shared his various case studies and experiments and emphasized on the development of natural products for human wellbeing. His words of advice leveraged innovations in safety validation quality and efficacy in traditional Indian medicine with evidence based scientific claims. He clearly stated that the Indian researchers need to dig into the traditional claims and conserve the rich tradition by validation and scientific authenticity, which will make India a super power in Health management.

Guest of Honor, Dr Bhushan Patwardhan Professor and Director, Interdisciplinary School of Health Sciences, Savitribai Phule Pune University, Pune, in his inspiring talk stated today's Healthcare is sick centric and not health centric, in today's era Healthcare is mentioned everywhere from Universities to Hospitals, its lack of healthcare and only patient care. The mind-set today is that there is no funding or grants for working on Health, but on the contrary huge sums are available to work on diseases like Cancer and diabetes, the modern world right from US has many institutions in the name of Health, but all those work only in diseases.
