SUMMARY

3.2.2- Number of workshops/seminars/conference including programs conducted on Research Methodology, Intellectual Property Rights (IPR) and entrepreneurship during the last five years-

Year	Name of the workshop/ seminar/ conference	Number of Participants	Date From – To
2017-18	Optimization of Organic reactions & processes	50	15.11.2017
2017-18	Training on "Design Expert" software	10	15.12.2017
2017-18	CGMP & Plant Layout	39	09.02.2018
2017-18	Structural Elucidation based on IR,MS,UV & NMR data	47	28.02.2018
2017-18	Pulmonary drug delivery systems	71	19.03.2018
2017-18	Diseases of Immunity	27	22.03.2018
2017-18	'Ethnomedicine: Prospects and Challenges in Global Healthcare Scenario'	192	21st – 22nd February 2018
2018-19	CFR and eCTD	21	13.10.18
2018-19	Regulatory prospects in Clinical research & requirement	33	16.10.18
2018-19	Rationale use of Antibiotics	49	23.11.18
2018-19	Regulatory aspects of Clinical Trials	14	24.11.18
2018-19	Artificial Intelligence in the field of Pharmaceuticals	24	23.3.19
2018-19	Agrochemical Formulations and career opportunities	22	23.3.19
2018-19	Computer Aided Drug Design	23	11.04.19
2018-19	Excipients – the key drivers in formulation success; Controlled Release Society - Indian Chapter	364	6th October 2018
2019-20	Avenues on Clinical research	75	09.07.19
2019-20	SAS technology and Programming	51	13.07.19
2019-20	Clinical Research	37	18.07.19
2019-20	Medical writing	85	23.07.2019
2019-20	Entrepreneurship Development	32	19.08.19
2019-20	Clinical Research	22	30.11.19

National Conference AY 2017-2018

Two Days National Conference on

'Ethnomedicine: Prospects and Challenges in Global Healthcare Scenario'

Duration- 21st – 22nd February 2018

SCES's, Indira College of Pharmacy, Pune in association with Society for Ethnopharmacology, India (SFE, Pune Chapter), had organized Savitribai Phule Pune University Sponsored Two Days National Conference on 'Ethnomedicine: Prospects and Challenges in Global Healthcare Scenario' & National Level Poster Presentation Competition 10th 'INDIRA PHARMA ZEAL' on 21st and 22nd February 2018.

Dr. Tarita Shankar, Chairperson, Indira group of Institutes and Prof. Chetan Wakalkar Group Director graced the occasion. Chief Guest Dr. Pulok Mukherjee, Director School of Natural Products Studies, Jadavpur University, Kolkata, emphasized on 'Drug Development from Ethnopharmacology' & related thrust areas of interest including marker profiling, phyto-informatics, reverse pharmacology & related integrated approaches in the field of Ethnopharmacy and Pharmacognosy. He shared his various case studies and experiments and emphasized on the development of natural products for human wellbeing. His words of advice leveraged innovations in safety validation quality and efficacy in traditional Indian medicine with evidence based scientific claims. He clearly stated that the Indian researchers need to dig into the traditional claims and conserve the rich tradition by validation and scientific authenticity, which will make India a super power in Health management.

Guest of Honor, Dr Bhushan Patwardhan Professor and Director, Interdisciplinary School of Health Sciences, Savitribai Phule Pune University, Pune, in his inspiring talk stated today's Healthcare is sick centric and not health centric, in today's era Healthcare is mentioned everywhere from Universities to Hospitals, its lack of healthcare and only patient care. The mind-set today is that there is no funding or grants for working on Health, but on the contrary huge sums are available to work on diseases like Cancer and diabetes, the modern world right from US has many institutions in the name of Health, but all those work only in diseases. The national conference was graced by many industry delegates, acclaimed academicians and students from different colleges of B.Pharm & M.Pharm course.

National Seminar

on

EXCIPIENTS – THE KEY DRIVERS IN FORMULATION SUCCESS
Controlled Release Society - Indian Chapter

6th October, 2018

Controlled Release Society (CRS Inc.), with over 4000 members worldwide, is an international organization for the promotion and development of novel drug delivery systems, with headquarters in Minneapolis, Minnesota, USA. The Indian Local Chapter of Controlled Release Society (CRS-IC) was established in 1994. The mission of CRS-IC is to promote development of talent and creation of intellectual wealth through R & D, at the leading edge of drug delivery science in India. The one day conference was attended by almost 365 participants including students from different colleges in Pune, Mumbai region, academicians and industry delegates.

ABOUT WORKSHOP

Excipients are the key drivers for a successful formulation and play a critical role in drug development process. They contribute to varied desirable attributes like stability, biopharmaceutical profile, appearance whilst enhancing overall safety and effectiveness of the drug delivery systems. Besides this, an excipient selection is very critical for lifecycle management of various products. A carefully identified excipient may reduce manufacturing costs either by being multifunctional or by helping reduce the number of unit operations required for the production of a dosage form. Though traditionally excipients were expected to show no therapeutic response, the serendipitous discovery of excipients eliciting a clinical response has further opened newer avenues. Keeping in mind the ever-rising significance of excipients, this seminar aimed to bring the excipient industry and academic researchers and scientists on a common platform to ensure better coordination and understanding between both the sections. The seminar was graced by expert scientists and innovators from numerous excipients companies and promised to be an unrivalled opportunity for the research scientists from academia as well as industry.

AY 2019-2020

International Webinar Series:

"Biologics: The Future of Therapeutics & Healthcare Management"

Duration- 6th – 9th Jun 2020

The term 'biologics' encompasses the entire range of substances and compounds that have a 'biological' origin. These include monoclonal antibodies, therapeutic proteins and peptides, and even whole organisms such as viruses and T cells. Their diversity is highlighted in their versatility; biologics have opened up possibilities for new and novel ways to treat diseases. Biologic therapies present the potential for more targeted, more effective and more personalized medicines.

SCES's Indira college of Pharmacy organized an international webinar which was graced by eminent scientist who shared their views and works in Biologics. The webinar was attended by distinguished industry personnel, faculty members and students. Since it was casted on YouTube, almost 2350 viewers participated in the international webinar series.

Esteemed Speakers:

Sr.No	Name of Speaker	Company name
1	Dr. Tejabharam Yedavalli	Post-doctoral fellow – Department of ophthalmology and visual sciences, University of Illinois, Chicago, USA
2	Dr. Yogeshwar Bachhav	Associate Director (Consultant), Pharmaceutical Development, AiCuris Anti-infective Cures, GmbH, Germany
3	Dr. Abhijit Date	Assistant Professor, Daniel K Inouye College of Pharmacy, University of Hawaii and Hilo, USA
4	Dr. Ratnesh Jain	Assistant Professor, Engineering Sciences, ICT, Mumbai

AY 2020-2021

National level webinar

on:

"Applications of specialty excipients & texture analysis in topical and dermatological formulations"

Duration- 2nd to 4th Sep 2020

The quality of medicines depends not only on the active principles and production processes, but also the performance of the excipients. The traditional concept of the excipient as any component other than the active substance has undergone a substantial evolution from an 'inert' and cheap vehicle to an essential constituent of the formulation. The rapid evolution of scientific, regulatory and economic factors, the introduction of delivery systems and the advance in biopharmaceutics have led to a new interest in the role and functionality of the excipients. More than one thousand raw materials are available from a multitude of sources and are used today in the pharmaceutical industry. Excipients are now chosen to perform a variety of functions to guarantee the stability and bioavailability of the drug substance from the drug product and its manufacturability on a production scale. Beyond the dosage form necessities, excipients are required to perform important and specific technological functions, particularly in the case of solid dosage forms. Excipient harmonisation, standardised functionality tests, preformulation data bases and expert systems will contribute to change the conventional trial-and-error formulation approach into a far more scientific and technological development.

One of the measures for the evaluation of dermatological & topical formulations is quantifying the textural properties like consistency, cohesiveness, index of viscosity, stickiness, and resilience. The measurements are performed using Texture Analyzer - a tensile meter equipped with special probes (in the form of acrylic cylinder and stainless steel sphere), which can penetrate the measured sample of a product recording the force, distance and time. The instrument simulates the action of a human finger touching the surface and probing the properties of an object. Students and faculty members got a deep insight and understanding about the uses and applications of texture analyzer.

Keeping these objectives in mind SCES's Indira college of Pharmacy organized national level webinar during the covid times; so that maximum faculty and students could register and get opportunity to interact with industry experts. This webinar benefitted 460 of the participants from industry, faculty members and B.Pharm & M.Pharm students.

AICTE National Conference on- "Good Pharmacy Educational Practices" 21st March – 24th March 2022

Teaching is more than imparting knowledge; it is inspiring generations. Learning is more than absorbing facts it is acquiring understanding, keeping this in mind we at Indira college of Pharmacy, coined the topic of the AICTE sponsored online National Conference on "Good Pharmacy Educational Practices" organized by IQAC of SCES's Indira College of Pharmacy, Pune from 21st March to 24th March 2022.

The Program was successfully unveiled by the kind and auspicious presence of Dr. Pramod Yeole Sir, Vice Chancellor, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, Vice President & Acting President, Pharmacy Council of India. We were delighted to have Dr. Rajendra Kakde, Advisor AICTE, New Delhi, Professor & Co-Ordinator for faculty of Pharmaceutical Sciences, Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur as guest of Honour for function. On the inaugural function we had a Discussion about the contribution of teacher in pharmacy education and how the goal of quality education can be reached.

The first session began with a discussion on the topic - Role of academicians in creating responsible Pharmacist? Delivered by Dr. Atmaram Pawar Principal, BVDU's Poona College of Pharmacy, Pune. He focused on objective of education of current era & how teachers should make students to think & not lead with definitions & principle of the topic. He also emphasized on creating case studies during practical's so that students are forced to think for the reasons with particular preferences. It was the culmination of a learning session.

Dr. Abhijeet Gothoskar Pharma Consultant, Pune was our next eminent speaker for Session II, who shared his insite on topic Making students Industry-ready. It was really a Brain storming session as his talk included about teaching practices post pandemic. He also covered a lot of ground, explaining 12 principles of modern learning, centered on the current state of the Indian pharmaceutical industry ,its market size, sector composition & key trends. He advised teachers on what industries want from graduates and how to bridge the gap. He emphasized the significance of blooms taxonomy & cone of experience and how to make students industry oriented.

"Redefining Pharma Education"

The second day began with distinguished speaker, Dr. N. K. Jain Ex Professor, Dr. H.S Gour University SAGAR (M.P). As he offered his thoughts on Role of self-efficacy beliefs in Pharmaceutical Teaching. it was a very educational and inspiring event. He expressed his view on Ethics, Self-efficacy & self-belief. Additionally, he explained that how self-efficacy is linked to academic achievement and the ability to overcome phobias.

The second session of Day II began with a presentation of Dr. M. S. Nagarsenker Professor Emeritus, Bombay College of Pharmacy, Mumbai. Her topic was Combining Teaching and research in Pharmacy Education. She guided the teacher delegates about how to make a perfect blend between teaching and research & how to get & apply for research grants. Her presentation also included information about educational journals in Pharmaceutical Sciences, which was I am sure is a very new aspects for teachers like us. It was a gaze experience for all of us.

The third session began with a talk. of Dr. Anagha Joshi Principal, S.C.E.S.'s Indira College of Pharmacy, Pune. It was a very engaging, educational, and stimulating session. Her talk focused on working together as a team, growing together with a growth mind set.

The fourth session began with talk of Dr. Parizad Elchidana Principal Technical Consultant Pharma at ACG World, Mumbai. She explained about the expectations of industry from academia, also shared her experience academic collaboration with industry & deeply discussed and explained possible ways to overcome the gap. The third day began with Talk of Dr. Md. Salahuddin, Principal, Al Ameen College of Pharmacy, Bangalore. He delivered the lecture on topic NEP and Pharmacy education. The session on National Education Policy was incredibly helpful. His presentation was centered on NEP & its role in Pharmacy Education, & What do you think the future of pharmacy education will be like? Session II began with Talk of Dr. Indu Pal Kaur, Professor & Head, Dept of Pharmaceutical Sciences University of Punjab, Chandigarh. She delivered the lecture on topic Role of academician in Translational research. Delegates were really captivated by her session. Her talk focused on how to adopt modern approach in collaborative research & venture creation. Dr. G. P. Mohanta, Professor, Department of Pharmacy Practice, Annamalai University, Chidabaram, Tamil Nādu was our next speaker for session III. He Delivered his insights on Pharmacy Practice education: Challenges & strategies for better future.

"Redefining Pharma Education"

It was an alarming and eye-opening session for pharmacy practitioners. Also his talk had glimpse of reality & challenges faced by students in India following pharmacy practice.

Session IV started with Talk of Dr. Srinivas Mutalik, Professor and Head, Department of Pharmaceutics, Manipal College of Pharmaceutical Sciences Manipal.

His talk was focused on Innovations through industry collaborations. Dr highlighted the aspects of how academia & industry collaboration is going to develop innovation in current years.

We were pleased & delighted to have Dr. Suneela Dhaneshwar, Director, Amity Institute of Pharmacy, Amity University, Uttar Pradesh, Lucknow as our next speaker for session .Her conference topic was Predatory Journals, A growing threat to Research Integrity. It was an eye-opening session regarding current aspects of Research integrity & Predatory Journals. The second session began with a talk of Dr. Prasoon Gupta, Principal Scientist, CSIR – Indian Institute of Integrative Medicine, Jammu. His topic was Designing and writing of effective research grant proposals. He focused on current aspects of research and shared his valuable expertise on getting research proposals. The third session began with a discussion of Dr. Hanumanthachar Joshi, Principal, Sarda Vilas College of Pharmacy, Mysore. He expressed his thoughts on Ethics in Pharma Education.
