- Sensitization of students and employees of the institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

At ICP, we believe in giving holistic all-round education to the students. And sensitizing students on our constitutional rights, values, duties, and responsibilities is one of the primary educations given at the institute through various means. Sensitization of students and employees of the Institution to the constitutional obligations is done through curriculum as well as through extra-curricular activities.

The University has introduced a compulsory paper on the Constitution of India at Degree level as well as at PG level to create awareness and sensitizing the students and employees to constitution obligation. As a part of strengthening the democratic values.
