Theme of Faculty Development Program	Target Audience
Drug engineering is a broad discipline encompassing discovery, formulation, assessment, and manufacturing of drugs as well as analytical and quality control processes. Recent advancements in technology have also provided impetus to design and develop therapeutic modalities. Through this Faculty Development Program, we attempt to provide novel insights and expertise to participants to equip them to be a contributor to this changing paradigm.	Faculty members from all disciplines of pharmaceutical sciences including Pharmacokinetics, Pharmaceutical Chemistry, Pharmacology & Toxicology, Pharmaceutical Analysis, Pharmacognosy & Phytochemistry.
Objectives of FDP <ul style="list-style-type: none"> To provide information of the latest trends in the industry Foster networking opportunities for broadening of research horizons. Acquaint faculty with funding opportunities Strengthen research expertise via exchange of ideas 	Course Outcomes This FDP would provide insights into novel and recent trends in myriad aspects of drug engineering which would enable the faculty to possess technical know-how who can then keep their students abreast with current scenario in drug discovery and development. Participants will be awarded a certificate on successful completion of the program.

The theme of the Faculty Development Program
 Medicinal Chemistry involves understanding how to design compounds to cure or alleviate diseases or syndromes. This FDP will focus on the strategies involved in discovering, inventing, designing and optimizing molecules for evaluation as new therapeutic entities. The key elements are developing molecules with an understanding of their physicochemical parameters, biological and toxicological profiles, and formulation. This program will provide key highlights of drug discovery and development.

Objectives of FDP

- > To provide information on the latest drug discovery trends in the industry.
- > Foster networking opportunities for broadening of research horizons.
- > Acquaint faculty with multidisciplinary research activities.
- > Strengthen research expertise via exchange of ideas.

Target Audience

- > Faculty members from all disciplines of pharmaceutical sciences including, Pharmaceutics, Pharmaceutical Chemistry, Pharmacology & Toxicology, Pharmaceutical Analysis and Pharmacognosy & Phytochemistry and other specializations in Pharmacy.
- > Faculty members from Life Sciences/ Biotechnology/ Engineering working in the field of drug discovery and development.
- > Maximum 200 participants (minimum 50) may be allowed to attend online FDP/FDP.

Course Outcomes
 This FDP will aim to provide insights into novel and recent trends in drug discovery, development, repurposing and formulation. This would enable the faculty to gain technical expertise, and thus, facilitate keeping students well-informed with contemporary developments in drug discovery and development. Participants will be awarded a certificate on successful completion of the program as per ATAL norms.

About the University
Delhi Pharmaceutical Sciences and Research University (DPSRU), is the first Pharmacy University of India established by Act 7 of 2008 of State Legislature of Delhi as a State University. The University has currently following units:

1. Delhi Institute of Pharmaceutical Sciences and Research (DIPSAR)
2. School of Pharmaceutical Sciences
3. School of Allied Health Sciences.
4. School of Physiotherapy
5. Academy of Sports Sciences Research and Management (ASSRM)
6. DPSRU Innovation and Incubation Foundation (DIIF)
7. Meditation and Yoga Centre
8. World Class Skill Development Centre of DTTE
9. DBT-BIRAC Bio Incubator Centre

DPSRU offers a wide range of courses in the pharmaceutical and allied health sciences and management like D. Pharm., B. Pharm., B.P.T., B.Sc. (Sports Sciences), M. Pharm. (Cosmeceutics, Drug Regulatory Affairs, Pharmaceutical Analysis, Industrial Pharmacy, Pharmaceutical Biotechnology, Pharmacognosy, Quality Assurance, Hospital Pharmacy, Pharmacology, Pharmaceutics, Pharmaceutical Chemistry, Clinical Research); MBA (Pharmaceutical Management); MPH (Master of Public Health); MHM (Master of Hospital Management) in addition to Ph.D. Programs and Certificate courses in Yoga, Sports Fitness and Yoga Application, Sports Digitalization & Fitness management and Beauty & Wellness Consultant.

INSTITUTION AT A GLANCE

Shree Chanakya Education Society (SCES) established in 1994, under the visionary leadership of Dr. Tarita Shankar, is one of the most reputed Educational Organizations, which has created its own forte in the educational arena in and around Pune. It has been branded as a premier educational hub in a very small time span. The institutions managed by SCES have maintained high academic standards and have successfully provided trained manpower to the industrial sector of our country. The objective of providing 'Professional education' in corporate environment has been made possible with sincere and dedicated efforts of members of SCES who have invaluable experience in varied professional and service areas

SCES'S INDIRA COLLEGE OF PHARMACY, PUNE

Indira College of Pharmacy (ICP) was established in 2006 under the auspices of SCES with a motto of **"Redefining Pharmacy Education"** and is committed to impart quality and value based education. The aim is to spawn young Pharmacists with a flare of professional attitude and thorough subject knowledge who would be an asset to the profession of pharmacy.

Indira College of Pharmacy has an excellent academic track record of catering to the needs of industry and provides excellent infra-structural facilities, well qualified, devoted & experienced faculty. Our college is ranked amongst **top 75 Pharmacy Colleges in India** in a survey conducted by 360° Careers, Outlook magazine. ICP has been awarded with **"Top Performing College Award" by World Education Congress, Global awards 2016. "Best Institute in Pharmacy" at Innovative Education awards 2016.** ICP is accredited by **NAAC with B++ grade.** We are committed to impart value based professional education with a positive attitude and a holistic outlook in a corporate environment. ICP with colossal educational vista has gained an outstanding reputation as the best institute in pharmacy education.

SOCIETY FOR ETHNOPHARMACOLOGY (SFE - INDIA): "GLOBALIZING LOCAL KNOWLEDGE AND LOCALIZING GLOBAL TECHNOLOGIES"

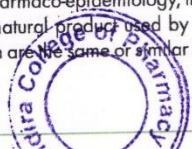

The Society for Ethnopharmacology, India (**SFE - India**) was constituted by the eminent academicians, researchers, industrialists with the vision of providing an environment for knowledge sharing among industrialists, researchers, students, healthcare-practitioners, and decision-makers interested in promotion of Ethnopharmacology and medicinal plant. The Society is registered under the West Bengal Society Registration act 1961 and is affiliated to the International Society for Ethnopharmacology, UK. The mission of the society is promotion and development of traditional medicine and medicinal plants through dissemination of knowledge and development of collaboration and cooperation in this area. The society organizes conferences, seminars, symposiums, workshops etc in different parts of India for discussion and sharing knowledge on different issues on cultivation, production, quality evaluation, safety, clinical studies, biological screening and several other issues of natural product research. The Society helps to inculcate the modern global knowledge on herb, herbal remedies, herbal quality assurance, herbal trade and commerce, and herbal drug development, so that the person with local knowledge can be upgraded. It forms a bridge between the academic and industry to gather scientific and teaching professional in Ethnopharmacology and also professional of other area interested in developing cost effective natural remedies, under one umbrella. The society also provides various scholarships and awards to the deserving students and scientists jointly with other organizations. For further details please visit www.ethnopharmacology.in

'ETHNOMEDICINE: PROSPECTS AND CHALLENGES IN GLOBAL HEALTHCARE SCENARIO'

Ethnomedicine refers to the study of traditional & alternative methods of treatment involving the use of various natural resources, processes and healing practices. The practice of ethnomedicine is an age old complex multi-disciplinary system constituting the use of plants, minerals, animals and natural environment, which has been effective way of curing diseases and disorders. Ethnopharmacology or ethnopharmacy is an integral part of ethnomedicine, which is a related study of ethnic groups and their system medicine. The main onus of the system is integration of the traditional system of medicine and pharmaceuticals in consideration to human ailments.

Humans are distinguished based on various cultures and races, as well as the habitats they dwell in. The lifestyles and habits are many a time responsible as triggering factors for various diseases and disorders. Ethnomedicine thus takes into account all these factors considering the human body as one system. Ethnomedicine involves identification and Pharmacognostic study of the natural products, traditional method of preparation of dosage forms, bioassay of the TM, their clinical significance with relevance to the public health, and biosafety and re-evaluation of such drugs.

Ethnopharmacology also relates to pharmaco-epidemiology, the study of how drugs are used by and affect large number of people. When investigating & mimicking a natural product used by an ethnic group as a medicine, it is important that the methods of collection, extraction and preparation are the same or similar to those used by them. This is to ensure consistency and legitimacy of the experimentation.
